

CS- & CSX- SERIES

Ceiling speakers

PRESENTATION

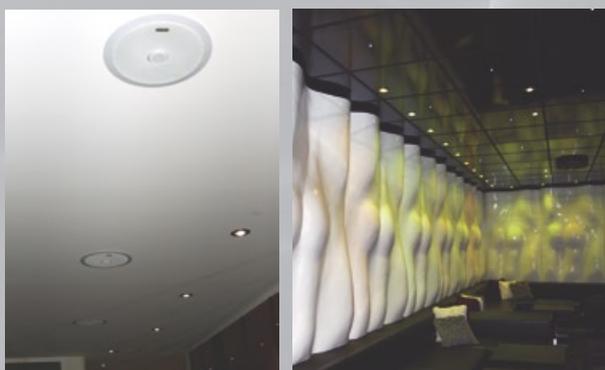

The PROPHON CS-Series consists of three sizes of coaxial 2-way ceiling speakers with passive crossover and a built in 100V line-trafo that enables all models to be run either in 8 ohm-version or 100V in 5W, 10W, 20W or 30W depending on model and configuration. Installing is made easy by the 3 adjustable fastening locks, that can be mounted on 8 mm to 30 mm thick ceilings or walls.

The drivers are protected with a fully covering perforated steel grille. CS502 consists of a 5"-woofer and a 0,75"-dome tweeter, CS602 consists of a 6" woofer and a 0,75"-dome tweeter, CS802 consists of a 8"-woofer and a 1"-dome tweeter.

The PROPHON CSX-series have the same technical specifications, but an even better sound quality with higher sensitivity, and a back-cover with push-terminals and a select switch for easily choosing power-taps when installing.

INSTALLATION

Developed to satisfy the demand in a series of ceiling / in-wall speaker with a two-way fullrange sound for speech and recorded music. They are easy to install and have a well balanced sound. The PROPHON CS-series has been designed for use in shops, hospitals, schools, A/V-rooms, conference centers, malls, cruises, and other leisure facilities, where design, sound quality and flexibility are essential.

Features:

- 2-way coaxial design
- Easy to install with smart hardware
- superb sound quality with fullrange frequency response, rich base and clear midrange
- Adjustable dispersion on tweeter
- built-in 100V trafo with different power taps
- Can be run in 8 ohm if bypassing the trafo
- Sleek design with only 65 - 85 mm. depth, depending on model

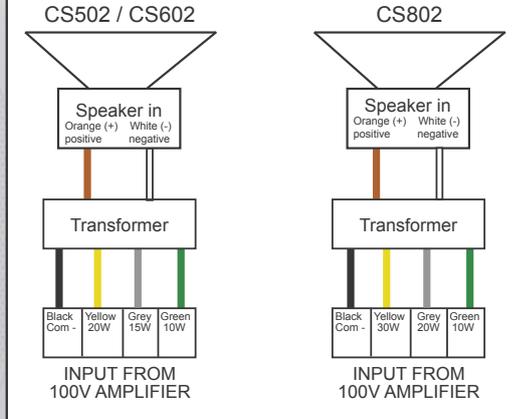

Applications:

- Bars and restaurants
- Shops and malls
- Public address
- schools
- A/V rooms
- Conference centers
- Home cinema, and surround.
